DESIGNED WITH YOU IN MIND

Meet

SAVVAS realize®

The solution that reimagines teaching and learning

As a teacher, you have a lot on your plate. You don't need a cumbersome LMS tying up your time and frustrating your students. Enter Savvas Realize®: the most versatile LMS on the market, designed with you in mind, and now made even easier to use. With **one login**, you can access everything you need — from curriculum-aligned content and customizable assignments to **rich student data** and powerful **class planning tools**. Shared learning playlists make collaborating with other educators a breeze. And a new streamlined dashboard — with quick links and visual displays inspired by our teacher users — provides students, teachers, and district administrators alike, an **easy-to-navigate**, game-changing platform so that learning can happen anytime, anywhere.
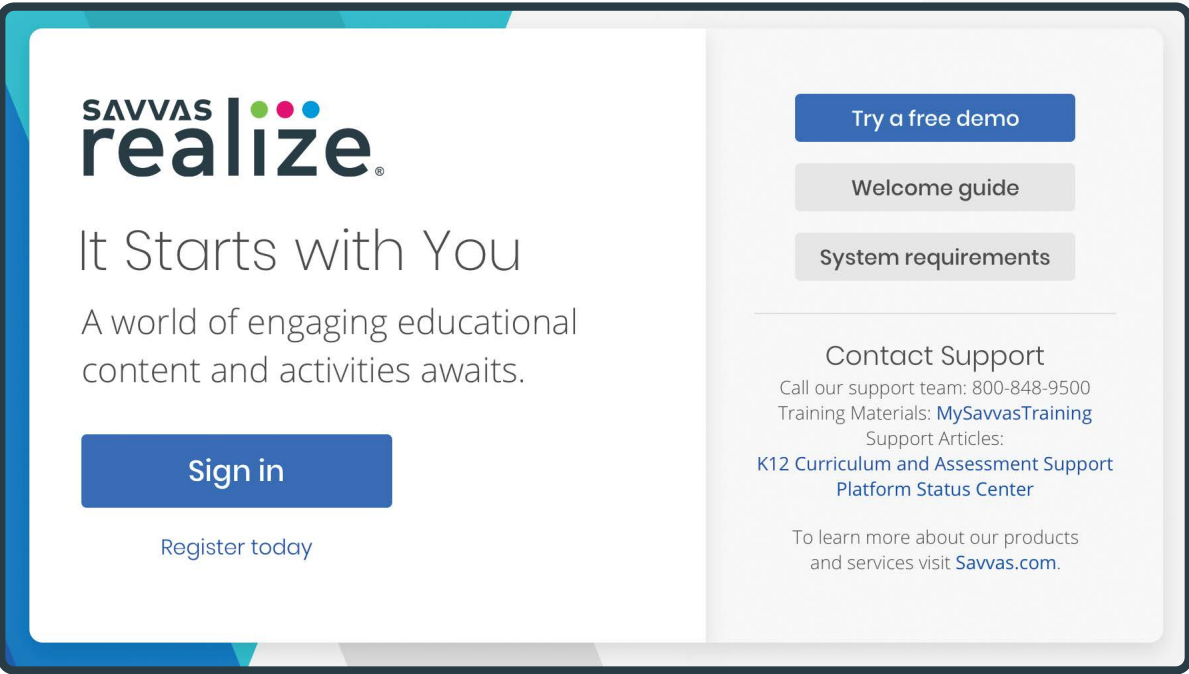

TABLE OF CONTENTS

Realize Key features:

- Assessment data travel with students if they transfer to a new class within the school or district, making it easier to pick up where they left off.

- Interactive digital content, videos, animations, games, and adaptive resources make learning experiences engaging and personalized.

Follow these steps to get started:

1 Go to **SavvasRealize.com** select the **system requirements** button.

2 Review this information to ensure your device is compatible.

3 Sign in using the username and password provided by your school.

ⓘ Note: If your district has directed you to a central login portal or third-party LMS, please follow those instructions for access.

Profile Setup

The first time you sign in you will be prompted to provide your name, Savvas program, and grade level(s). You will also choose a profile icon.

Class Setup

Before students can sign in, teachers must roster their classes. You can do this manually in Realize or your district may choose to auto-roster using EasyBridge. While rostering, you will select the program you want for your class(es). You can also link to Google Classroom™.

Realize and Google Classroom

Watch video ›

TEACHER HOME PAGE

Think of the Realize home page as your control centre, where you can access assignments, assessments, and interactive student and teacher editions for one or all of your programs.

Getting Started with Realize

Watch video >

Important Alerts

Look for notifications, like when custom content has been shared with you by an administrator or fellow teacher.

Find Content

Search for curricular content by keyword.

Get Help

Search for help navigating Realize; connect with our Customer Care Center for technical support; and contact a program specialist for curricular support.

Navigate Anywhere

From any page, you can use the top menu to return to this **Home** screen; **Browse** all of your programs; access assignments, rosters, and data for your **Classes**; and create custom content in **My Library**.

At-a-Glance Info

Once you have at least one class, a class card will show you key details about recent **assignments**, as well as direct access to that class's **Data** and other important information.

(i) If you have three or fewer Realize classes, your class cards will be rectangles; if you have four or more, your class cards will be squares.

Google Classroom

An icon clearly identifies classes that have been imported or linked from Google Classroom.

Access Content

Click on any title in **My Programs** to see the Table of Contents and access resources for that program.

Stay Up-to-Date

Be sure to read any message you see – it's how we share updates on new features, tips for using Realize, and other helpful information.

Assign ⋮
⊕ Add to Playlist
ⓘ Information

Once you've found the perfect lesson, activity, or assessment, assigning is easy.

Assign content directly to individual students, small groups, or an entire class. Or **add to a playlist** as part of a larger lesson.

PLANNING & PRESENTING TOOLS

Easily preview, plan, and present digital content in one place.

Select an item to preview or click and drag to rearrange content.

After browsing for content, select the topic.

Planning and Presenting

Watch video >

Presenter view organizes your content in two windows, allowing you to present front-of-class content to your class while accessing behind-the-scenes teacher information on your own device.
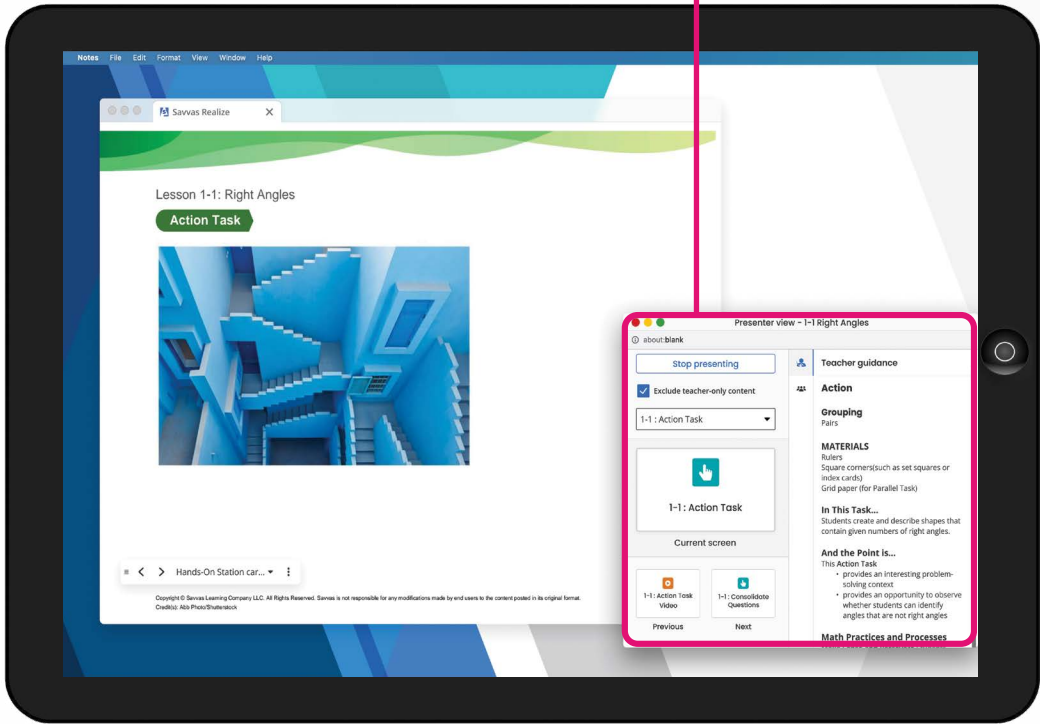

Once you have everything in order, simply press "Present" to show it in front of your class.
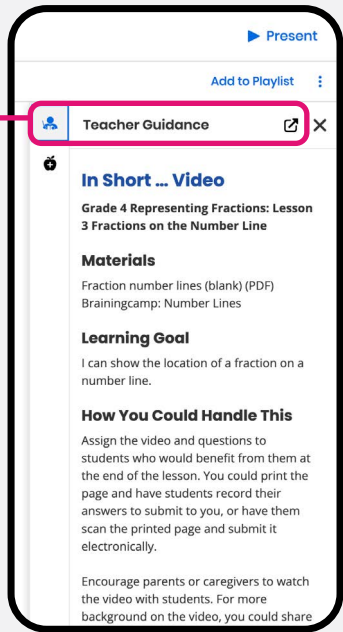

Teacher guidance puts at point-of-use the teacher information you need to teach a successful lesson, including sample responses, answer keys, and more.
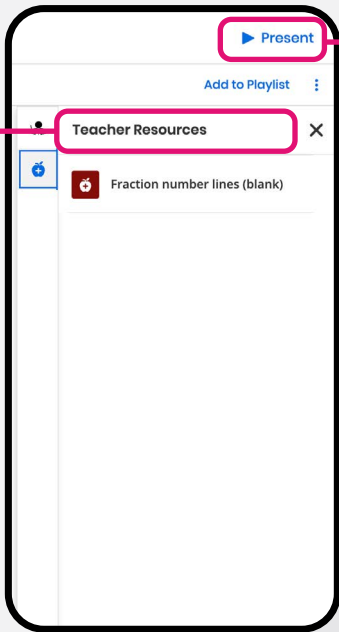

Teacher resources are at point of use for printables.

MY LIBRARY, REALIZE READER, AND INTERACTIVE PDFS

Savvas Realize offers a variety of tools to make planning for and teaching your classes easier and more efficient.
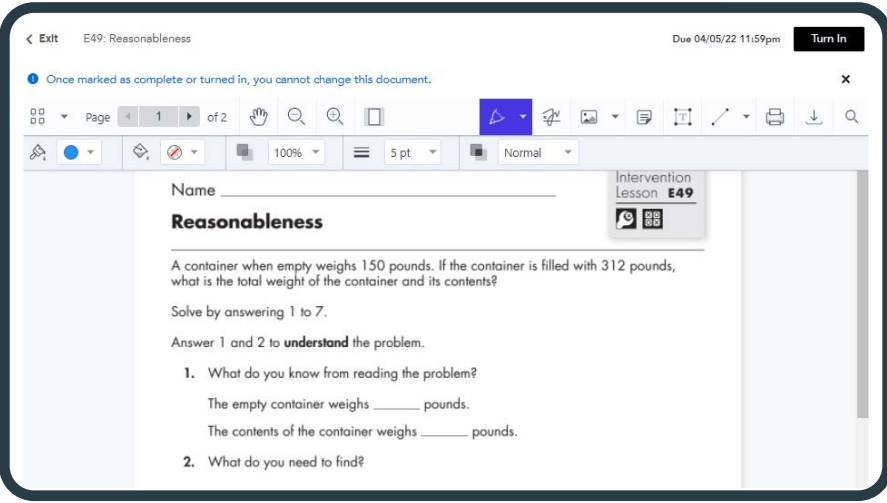

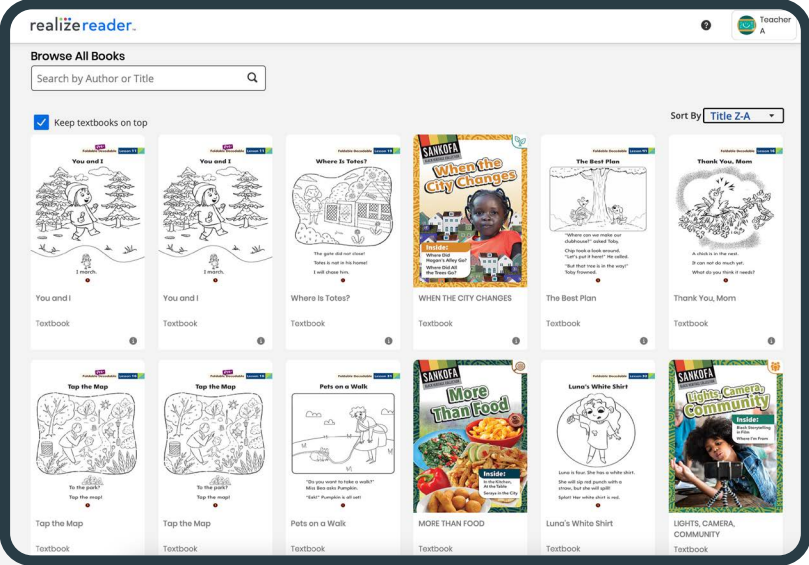

No Internet? No Problem.

With Realize Reader, you and your students can access eTexts—and take notes, highlight, save bookmarks, and respond to prompts—whether you're online or offline. For offline access, visit **reader.savvasrealize.com** and follow the directions.

Accessing eTexts Offline

Watch video >

Customize Your Content

Upload your own files, add links, and build tests under the **Create Content** menu.

Your Personal Portfolio

Under **My Content** you will see all of the custom content you create. **Shared With Me** houses playlists shared by teachers and assessments shared by administrators.
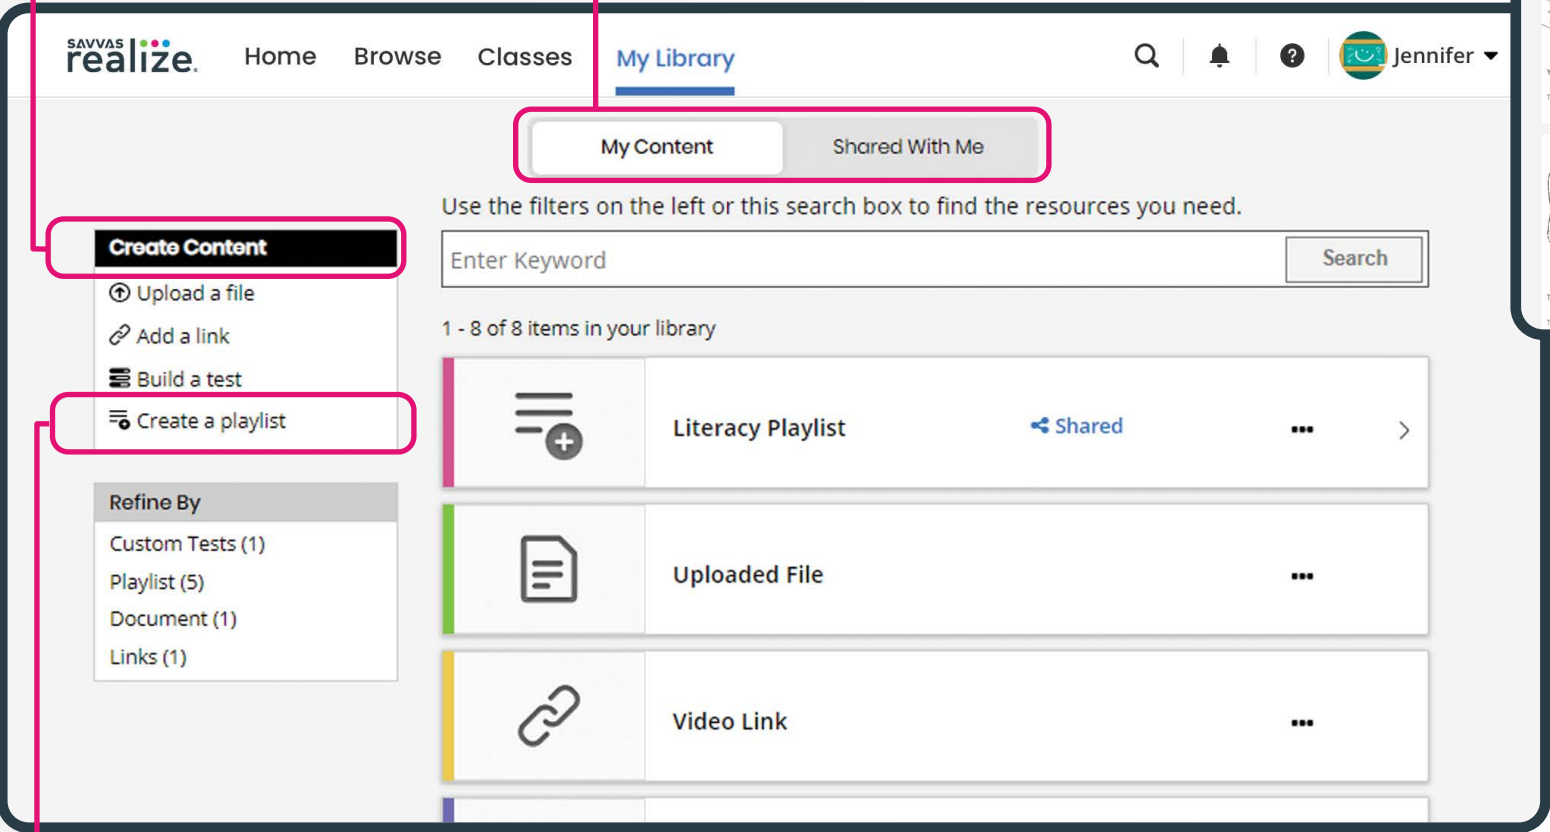

Lesson Playlists

Create lesson playlists with content from across programs and/or your own custom content. Then, share it with teachers in your school or district.

Playlist Sharing

Watch video >

ASSIGNMENTS

Realize makes reviewing and assessing student work easy. You can view your class assignments directly from your Dashboard's class card, or by selecting from a list of classes under the "Classes" tab.

Transfer Student Data

Watch video >

Make Data-Driven Decisions

Access individual-student and whole-class assessment results and **data** for auto-scored assessments.

Target Your Instruction

View your class roster, and create and manage your small groups.

Start a Discussion

Create a **prompt** or manage active discussions to keep your class engaged.

Add a Co-Teacher

Give your co-teacher or substitute access to your class.*

* Must be enabled by district

Review Transfer Student Scores

View previously submitted assignment scores from students who have transferred into your class from another class of the same subject in your district.

Find What You Need

Search for assignments by title keywords for quick access to specific assignments.

Dive Deeper

Click on any title to see who has turned in their assignments, and review student answers.

ASSESSMENT DATA

From a bird's eye view of your class's performance to individual student assessment data, Realize gives you the real-time insights you need to help guide your instructional decisions.

Viewing Data

[Watch video >](#)

Convert to Points

Choose whether to view assessment scores as points or percentages.

Sort Your Data

Each analysis view allows you to sort your data in various ways, so you can easily focus on strengths and areas for improvement.

Focus Your Search

Narrow the date range to hone in on assessments from a specific timeframe, or broaden to include more.

Dig in to the Data

Click on any assignment title to look at the data by question, student, or overall performance.

Export Class Data

Save data as a CSV file that can be imported or opened in Excel® and other spreadsheet tools.

Question Analysis

Look at each question to see how many students—and who—got the answer correct, partially correct, or incorrect.

Student Analysis

Drill down to the student level to review submitted answers and get detailed information about an individual student's performance on the assessment.

Performance Analysis

Set a cut score, and Realize will group students based on overall assignment score and provide recommended resources to assign.

STUDENT HOME PAGE

The Realize student and teacher interfaces are designed to mimic one another, so you and your students can navigate in parallel.

Realize for Students and Parents

Watch video >

Find Content

To search for content in Savvas Realize, click the magnifying glass icon at the top right of any page.

Student Profile

Students can click the **Profile** icon at the top right of any Savvas Realize page to access the following:

1 The **Settings Menu** allows students to select a language and customize their Profile Home Page images.

2 Click **Sign Out** to close Savvas Realize. This is especially important if your student is sharing a computer or device with others.

Navigate Anywhere

Menu options on the Home Page allow your students to **Browse** their digital content and access all of their Realize **Classes**. These menu options are available from every Realize page.

At-a-Glance Info

For each of their Realize classes, students have a class card that includes recent **assignment information**, alerting them to comments and reminding them of due dates. Cards also provide access to each class's **assessment data** and **programs**.

Assignment Icons

Easy-to-identify icons help early learners find their assignments.
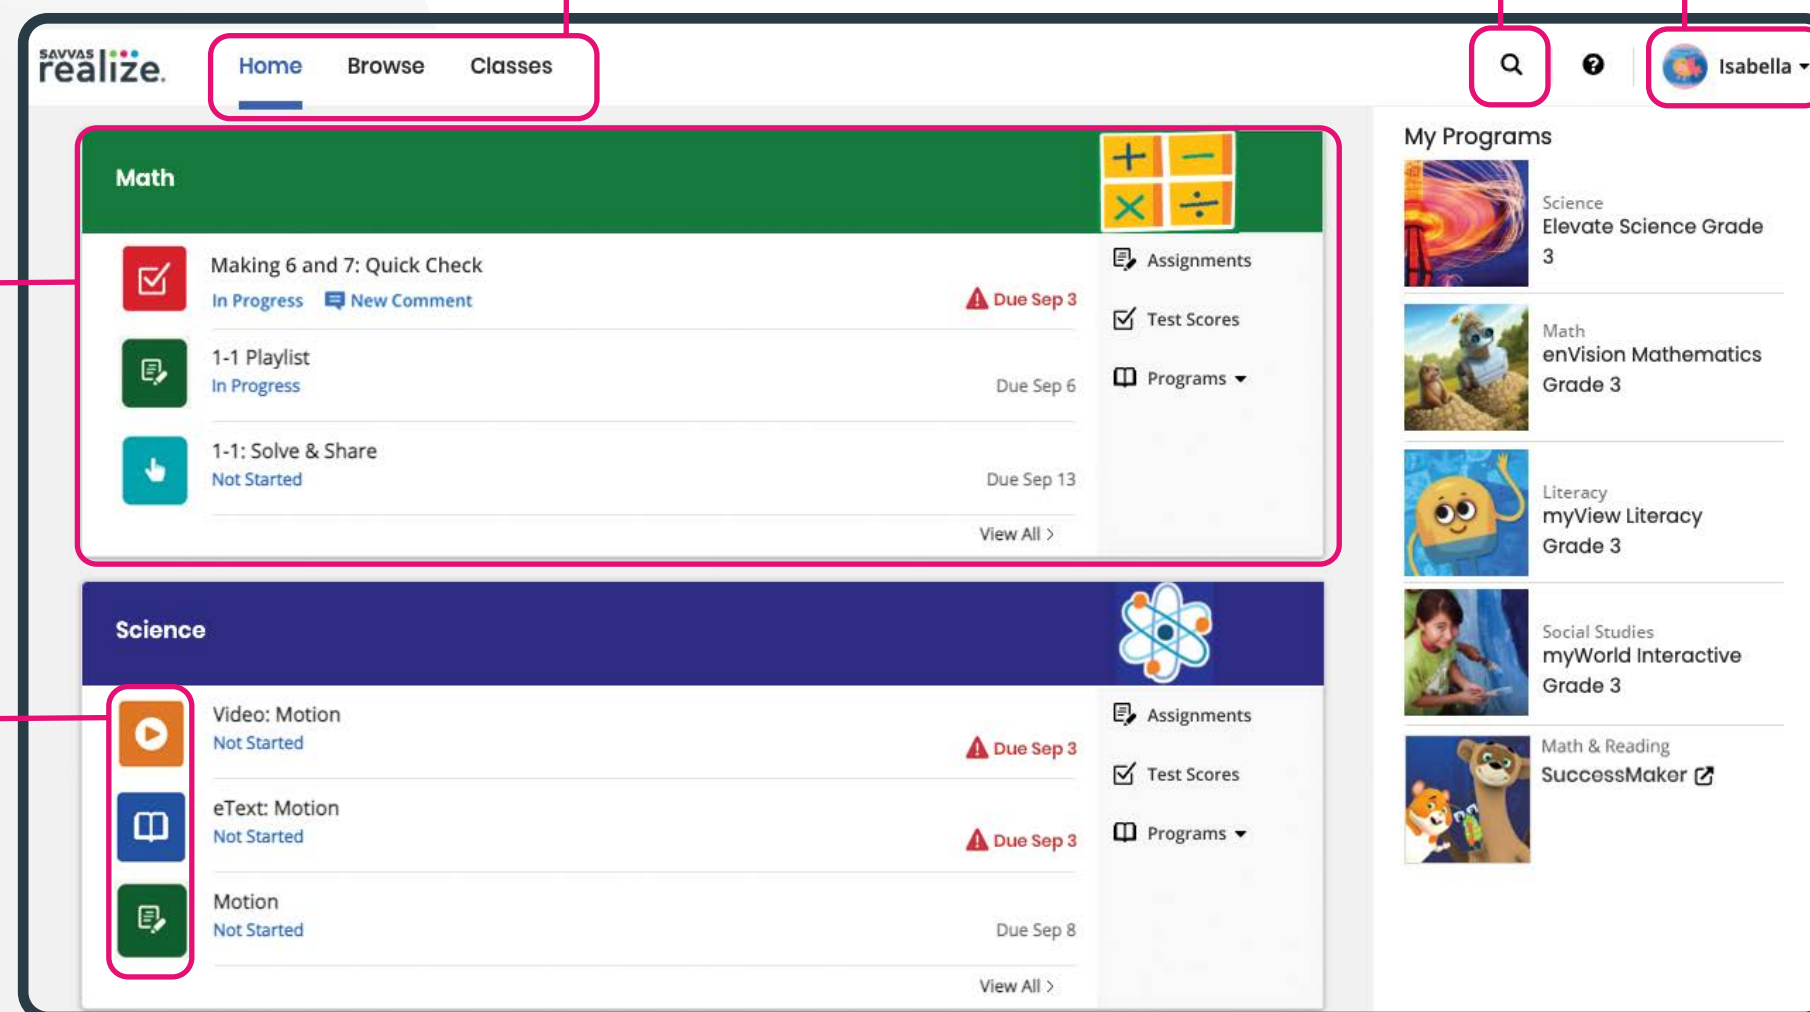

CONNECT TO WHAT MATTERS

No matter what technologies you use, we have an integration for you. Realize is designed around how you, the teacher, work and manage class on a daily basis. To support teacher-centred design, Realize integrates with a number of the digital tools you may already use. Because every district has a different policy and process for integrating these tools, check with your school or district IT staff to get a better idea of what is possible and approved for integration.
